IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed:

1. **READ ALL INSTRUCTIONS.**
2. Do not touch hot surfaces; use handles or knobs.
3. To protect against risk of electrical shock, do not immerse the slow cooker housing in water or any other liquid. If housing falls into liquid, unplug the cord from outlet immediately. DO NOT reach into the liquid.
4. To avoid possible accidental injury, close supervision is necessary when any appliance is used by or near children.
5. Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance has malfunctioned or has been dropped or damaged in any way or is not operating properly. Return the appliance to the nearest Customer Service (see Warranty for details) for examination, repair or mechanical or electrical adjustment.
7. The use of attachments not recommended by Cuisinart may cause fire, electrical shock, or risk of injury.
8. Do not use outdoors or anywhere the cord or unit housing might come into contact with water while in use.
9. Do not use the slow cooker for anything other than its intended use.
10. To avoid the possibility of the slow cooker being accidentally pulled off work area, which could result in damage to the slow cooker or personal injury, do not let cord hang over edge of table or counter.
11. To avoid damage to cord and possible fire or electrocution hazard, do not let cord contact hot surfaces, including a stove.
12. Extreme caution must be used when moving a slow cooker containing hot oil or other hot liquids.
13. Do not place on or near a hot gas or electric burner, or in a heated oven.
14. Do not operate slow cooker in water or under running water.
15. Avoid sudden temperature changes, such as adding refrigerated foods to a heated pot.

17. **CAUTION:** A heated ceramic pot may damage countertops or tables. When removing the hot ceramic pot from the slow cooker, DO NOT place it directly on any unprotected surface. Always set the hot pot on a trivet or a rack.
18. To disconnect, press the On/Off button, and then remove the plug from the wall outlet.

SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

SPECIAL CORD SET INSTRUCTIONS

A short power supply cord is provided to reduce the risks of becoming entangled in or tripping over a longer cord. Longer extension cords are available and may be used if care is exercised.

If a long extension cord is used, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance. The longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over unintentionally.

NOTICE

This appliance has a polarized plug (one prong is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

9. To turn the unit off manually, press the On/Off button.

10. Lift ceramic pot carefully, using potholders.

NOTE: The U.S. Department of Agriculture (USDA) recommends that when cooking anything containing meat in a slow cooker, the meat should reach 140°F (60°C) within 2 hours. This ensures that the meat will reach food-safe temperatures in the proper amount of time.

Cooking WITHOUT the Timer

If no timer is set in conjunction with any cooking setting, the selected cooking setting of High, Low or Simmer will default to 24-hour cooking time.

1. Place the unit on a clean, dry counter.
2. Remove glass lid.
3. Fill ceramic pot with ingredients.
4. Replace lid.
5. Plug in unit. There will be no power to the slow cooker until it is turned on.
6. To turn unit on, press On/Off button. The slow cooker will beep once, and the On/Off indicator red light and colon (:) on the LCD display will flash.
7. Set the desired cooking modes by pressing High, Low or Simmer setting. Refer to the cooking table guidelines on page 4. If you choose to use the timer, please refer to the Cooking With the Timer section and follow Line 7.

Cooking Guidelines

Three cooking modes, Simmer, Low and High, give you the opportunity to prepare a wider variety of dishes. You can adapt many recipes to slow down the cooking time, or speed it up, to coordinate meals to your schedule.

You will usually want to use the Simmer or Low setting for recipes that cook longer. If you're starting a dish later in the day, select the High setting to ensure that your food is cooked, warm, and ready when you'd like to eat.

Setting	Guidelines	Recipes	Program Temp.	Timer
High	This is the setting to use when you don't have time for a long, slow cook. It's also the setting to select when "baking" in your slow cooker.	Casseroles, puddings, cheesecakes, rolls	212°F (100°C)– 165°F (74°C)	Programmable up to 24 hours, then 8 hours (Warm)
Low	Low is the standard slow cooker temperature, and is ideal for foods that you start in the morning before work, and enjoy at the end of your day.	Braises, roasts, stews, ribs, casseroles, shanks, chops, less tender cuts of meat soups	200°F (93°C)– 165°F (74°C)	Programmable up to 24 hours, then 8 hours (Warm)
Simmer	The longer the cooking time, the more flavours blend together and intensify.	Soups, stews, stocks	185°F (85°C)– 165°F (74°C)	Programmable up to 24 hours, then 8 hours (Warm)
Warm	Do not use this setting to cook food or as a cooking function. This setting intended only to use with preheated foods.	----	165°F (74°C)	If cook mode is timed, Warm defaults to 8 hours maximum and is programmable up to 24hrs. If no timer is set, the unit will turn off at the end of cooking cycle.

CLEANING AND MAINTENANCE

Unplug your Cuisinart® Slow Cooker and allow it to cool before cleaning. Place ceramic pot and lid in the dishwasher or wash with warm, soapy water. If food sticks to the surface, fill ceramic pot with warm, soapy water and allow to soak before cleaning. If scouring is necessary, use a nonabrasive cleanser or liquid detergent with a nylon pad or brush.

Tips & Hints

- Before food is added, the ceramic pot may be lightly coated with cooking spray so cooked foods release more easily.
- Root vegetables such as carrots and potatoes will take longer to cook. Either cut the pieces smaller or place on bottom of Slow Cooker. Baby carrots, for example, may take longer than other vegetables.
- Ground meats and uncooked sausages should always be browned and drained before adding to Slow Cooker. Smoked sausage such as kielbasa does not need to be browned (though it may add flavour and visual appeal). If browning the night before, make certain the meat is cooked completely through and properly refrigerated. Combine with other ingredients just before slow cooking.
- Browning meats (roasts, chops, cubes for stews) and poultry adds flavour and eye appeal to the finished dishes. It also helps cook out some of the fat.
- In general, cooking for 1 hour on High is the equivalent of cooking for 2 hours on Low.
- If you are not ready to serve food immediately, switch to the Warm mode to hold foods until ready to serve.
- Tender vegetables, or those that you wish to be crisp-tender, should be added during the last 30 minutes of cooking time to prevent overcooking.
- Each time you remove the lid, you will lose heat and will need to add 15 to 20 minutes to your cooking time. If you do need to stir (or peek), lift the lid just slightly so that you can get the spoon or spatula in.
- A fat mop can be used to remove separated fat from slow cooked food by brushing it over the top. Alternatively, the food may be refrigerated, and the congealed fat can then be lifted off and discarded before reheating and serving.
- Many slow-cooked foods such as stews benefit from cooling and refrigerating, then reheating – as the saying goes, stew or chili is always better the second day.

- If using frozen foods, thaw completely before adding to Slow Cooker.
- To cut the fat from recipes, remove as much of the visible fat as possible from meats and poultry. Cook and drain all ground meats. Remove skin from poultry.
- Dried beans should be soaked overnight, then rinsed, drained and rinsed again before cooking. Do not add salt or any acid to beans when cooking, as it will prevent them from softening completely. Dried beans can be cooked ahead, drained and frozen. Thaw before adding to your favourite recipes.
- The Slow Cooker is perfect for foods that require long, slow simmering, such as soups, stocks, stews, and dried beans.
- The Slow Cooker is the perfect way to cook items that require a bain marie, or water bath. We recommend starting out with hot water and cooking on High for most of these recipes.
- Cooking ground meats in the Slow Cooker without browning them first is not recommended, as ground meat has a high incidence of bacterial contamination. Ground meats used in the Slow Cooker should be browned first. We strongly advise against cooking a meatloaf in the Slow Cooker. (The Country Pâté in our recipe book is an exception. The meat is “ground” fresh in the Cuisinart® Food Processor and is cooked in a simmering water bath on the High Setting. When tested with a probe thermometer, the Pâté reached a safe food cooking temperature.)
- Most of the recipes in this book are cooked on Low using the timer function, to allow you maximum freedom to go on to do other tasks. Most meats are better when cooked on Low (slower) than on High, and the recipes are written as such. If you prefer to slow cook on High, cut the cooking time in half.

To adapt your own recipes to the Slow Cooker:

- For most recipes, reduce the cooking liquid by at least 50% (soups are the exception). Liquids do not evaporate as they do in traditional cooking, and you often will end up with more liquid than when you began.
- In most cases, all ingredients can go in the Slow Cooker at once and can cook all day on Low setting. While it is not necessary to brown or sauté vegetables (onions, carrots, celery, peppers, etc.), it may add to the flavour. Browning meats adds to their taste and visual appeal, and helps to remove fat.
- Certain cuts of meat are more appropriate for Slow Cooker cooking: brisket, tip roast, chuck or rump roast, beef bottom round, pork shoulder or Boston butt, lamb shoulder, venison, chicken legs and thighs. Particularly lean cuts such as boneless, skinless chicken breast or “new generation” pork loin or tenderloin may seem dry when prepared in a Slow Cooker. See list of meats that are best in Slow Cooker (page 4).
- Dairy products (milk, sour cream, some cheeses) will break down and curdle during slow cooking. Substitute canned evaporated milk or nonfat dry milk, or add dairy products during the last 30 minutes of cooking.
- When making soups, add solid ingredients to Slow Cooker and then liquid to cover. If a thinner soup is desired, add more liquid to taste.
- If your recipe calls for precooked pasta – **UNDERCOOK** it.
- Add cooked rice to recipes during last hour of cooking.

Important Guidelines

- The Slow Cooker should always be at least half full for best cooking results; however, the Slow Cooker should never be more than three-quarters full or about 1½ inch (3.75 cm) from the top rim.
- Because the Slow Cooker heats and cooks at low temperatures, food should be at room temperature before it goes into the cooker. If the food is refrigerator temperature, heat it on the high setting for about 2 hours to heat the contents to 140°F (60°C) before changing to the low setting.
- If foods are to be cooked the next day in the ceramic pot, do not store in the refrigerator overnight.
- Any leftover food should be removed from the ceramic pot and stored in plastic containers up to 2 days, or frozen for future use.
- **NEVER** use the Slow Cooker to reheat food, as potentially harmful bacteria could develop during the slow cooking process. Remove food from the ceramic pot and reheat in a heat-safe container on a stovetop, or in an oven or microwave. Return food to the ceramic pot and keep warm in an oven, covering with foil, if desired. **DO NOT** use the glass lid in an oven. **DO NOT** place the ceramic pot on a stovetop or in a microwave.
- Do not place the ceramic pot directly on a table or countertop.
- Do not add frozen food such as meat or vegetables to Slow Cooker dishes. Heat to room temperature before adding.
- For food safety reasons, whole chickens should not be cooked in a Slow Cooker. They may not reach safe temperature in the proper amount of time.
- When cooking meat, it is recommended, to set the unit to **High** for one hour and then reducing the heat to **Low**.
- Avoid sudden temperature changes. Really cold food or water can crack a hot ceramic pot.
- Never heat the ceramic pot when it is empty.
- Do not touch sides of Slow Cooker ceramic pot or Slow Cooker base while food is cooking.
- Always use potholders or oven mitts when removing the lid or ceramic pot from the base after cooking.

Spinach, Gruyère & Artichoke Dip

The slow cooker is the perfect vessel to bake our version of this old snack [avourite to feed a crowd, especially when your oven is busy with the rest of the meal.]

Makes about 2 quarts (1.9 L)

16	ounces frozen spinach (one bag), thawed	3	ounces (85 g) Gruyère, shredded
2	cans [15 ounces (425 g) each] quartered artichoke hearts, drained	1	garlic clove, finely chopped
		1	ounce (28 g) shallot, finely chopped
16	ounces reduced fat cream cheese, cut into 1-inch (2.5 ml) pieces	2	ounces (57 g) Parmesan, grated
¼	cup (62 ml) evaporated fat-free milk, not reconstituted	½	teaspoon (2 ml) Tabasco® or other hot sauce (use more or less to taste)

Brush a 2-quart (1.9 L) soufflé dish lightly with olive oil or coat with cooking spray. Place the spinach in a clean, dark kitchen towel and squeeze until all liquid is removed; reserve. Place the artichoke quarters in a towel and squeeze gently to remove excess liquid (do not squeeze too hard); reserve.

Place the cream cheese and evaporated milk in a large bowl. Using a hand-held mixer on medium speed, beat until creamy and smooth. Add the Gruyère, garlic, shallot, and two-thirds of the Parmesan; stir on low speed. Add the reserved artichoke hearts and hot sauce; stir on low speed to blend.

Transfer the mixture to the prepared dish; sprinkle with remaining Parmesan.

Place the cooking rack in the Cuisinart® Slow Cooker. Place the filled soufflé dish on the rack.

Cover and press the On/Off button to turn the unit on. Set time to 3 hours and press High; slow cooker will automatically switch to Warm when cooking time has elapsed.

Heat the olive oil in a Cuisinart® 12-inch (30 cm) nonstick skillet over medium-high heat. When hot, add the sausage in a single layer and brown evenly on all sides, about 10 minutes. Remove and let cool. Add the mushrooms to the same pan and cook to brown, about 3 to 4 minutes. When the sausage is cool enough to handle, cut into ½-inch (1.25 cm) slices.

Place the lentils in the ceramic pot of the Cuisinart® Slow Cooker. Add the chopped onions, carrots, garlic, browned mushrooms, basil, and thyme; stir to combine. Sprinkle the mixture with the sun-dried tomatoes and top with the sausage and any accumulated juices. Add the chicken stock.

Cover and press the On/Off button to turn the unit on. Set time to 2 hours and press High. Once time elapses, reset time to 5 hours and press Simmer; Slow Cooker will automatically switch to Warm when cooking time has elapsed.

Forty-five minutes before serving, reset the temperature to High – if soup is very thick, add up to 2 cups (500 ml) water. After 15 minutes, add the tortellini. Cover and cook for an additional 30 minutes, until the tortellini are cooked and tender.

Serve with freshly grated Parmesan cheese.

Barbecue Beef Brisket

This is a multi-step process, but well worth the effort. Because brisket is chilled after cooking, it allows you to remove excess fat, and makes slicing easier.

Makes 12 servings

- | | | | |
|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|-------------------------------------------------------------------------------|
| 1 | beef brisket, approximately 4-4½ pounds (1.8 - 2 kg) | 1 | teaspoon (5 ml) kosher salt |
| 2 | tablespoons (30 ml) light or dark packed brown sugar | 1 | teaspoon (5 ml) dry mustard |
| 2 | teaspoons (10 ml) Worcestershire sauce | 1 | teaspoon (5 ml) liquid smoke |
| 2 | teaspoons (10 ml) freshly ground black pepper | 2 | medium onions, peeled, cut into ½-inch (1.5 cm) slices |
| 2 | teaspoons (5 ml) garlic powder | ½ | cup (125 ml) lager or ale |
| 1 | Trim fat cap on top of brisket to ⅛-inch (0.3 cm) thickness. Do not remove it all – it helps to keep the brisket tender and moist. Combine the brown sugar, Worcestershire, pepper, garlic powder, salt, dry mustard, and liquid smoke. Rub all over the brisket. If time allows, cover and refrigerate overnight to marinate. | 2 | cups [(500 ml) more to taste] Barbecue Sauce, page 35, or purchased BBQ sauce |

Make a single layer of the sliced onions in the bottom of the ceramic pot of the Cuisinart® Slow Cooker. Add the lager. Place the coated brisket on top. Cover and press the On/Off button to turn the unit on. Set time to 10 to 12 hours and press Low; Slow Cooker will automatically switch to Warm setting. Remove the brisket, onions and cooking juices from the Slow Cooker and place in a shallow pan. Cover and refrigerate.

One hour before serving, remove brisket from refrigerator. Preheat oven to 375°F (190°C). Remove hardened fat and discard. Remove brisket from cooking liquid. Strain liquid from onions and reserve for another use [you will have about 2 cups (500 ml). This may be frozen – it is very good to use in soups]; discard onions. Slice meat thinly [⅛ -inch (0.3 cm) thick slices] while cold.*

Reassemble and place in roasting pan/baking dish. Spread 2 cups (500 ml) Barbecue Sauce evenly over the reassembled roast. Cover pan with lid or foil and place in preheated oven for 30 to 40 minutes, until heated through. Serve hot.

Alternatively the meat can be sliced thickly, then shredded using fingers or two forks. Stir in sauce and reheat until it just bubbles. After reheating, the Barbecue Beef may be placed in the Slow Cooker on Low for 1 hour, then turned to Warm when cooking time has elapsed.

*Thin slices will be easy to achieve using a Cuisinart® Electric Knife.

Pulled Pork Barbecue

Makes 10 cups (2.5 L)

5	pounds (2.27 kg) bone-in country-style spare ribs	1	pound (454 g) onions, peeled and thickly sliced
1½	teaspoons (7 ml) kosher salt	2	cups (500 ml) water
1	teaspoon (5 ml) freshly ground black pepper	2-3	cups (500 - 750 ml) Barbecue Sauce, page 28 (or purchased)
1	teaspoon (5 ml) paprika		

Trim ribs of excess fat. Season with salt, pepper and paprika. Layer seasoned pork and onions in ceramic pot of Cuisinart® Slow Cooker, ending with a layer of onions. Add water. Cover and press the On/Off button to turn the unit on. Set time to 10 to 12 hours and press Low; Slow Cooker will automatically switch to Warm when cooking time has elapsed. Pork should be tender and falling off the bone.

Transfer pork to a shallow food storage container. Strain liquid and discard onions. Pour liquid over pork. Cover and refrigerate. When chilled, the fat will solidify and rise to the top. Lift off and discard. Remove pork from liquid (which will have gelled); reserve liquid for another use (it is particularly good to use in the Black Bean, Pea or Spanish Bean Soup) – it may be strained and frozen, or discarded. Pull pork from bones; discard bones. Trim off and discard fat. Shred pork.

Place shredded pork in ceramic pot of Cuisinart® Slow Cooker. Add 2 to 3 cups (500 - 750 ml) Barbecue Sauce; stir. Cook for 3 hours on Low or 2 hours on High. Serve on Warm.

| 6 | sprigs parsley | 8 | ounces (227 g) shallots, peeled and chopped |
| 6 | veal shanks (about 4 - 4½ pounds total), about 1¼ inches (3.12 cm) thick, 3-3½ inches (7.5 - 8.75 cm) in diameter, tied | 4 | ounces (113 g) celery, peeled and chopped |
| | | 4 | garlic cloves, peeled and chopped |
| 1 | teaspoon (5 ml) kosher salt | 4 | teaspoons (20 ml) herbes de Provence, divided |

| ½ | cup (125 ml) unbleached, all-purpose flour | ½ | cup (125 ml) dry white vermouth |
| 1 | tablespoon (15 ml) extra virgin olive oil | ½ | cup (125 ml) nonfat, low-sodium chicken stock |

| 1 | pound (454 g) onions, peeled and chopped | 1 | strip lemon zest |
| 8 | ounces (227 g) carrots, peeled and chopped | | |

Remove leaves from the parsley, reserving stems. Chop leaves; reserve.

Season veal with salt and pepper; dust lightly with flour, shaking off excess. Heat olive oil and butter in a 12-inch (30 cm) Cuisinart® skillet over medium-high heat. When hot, add the veal shanks and cook for 4 to 5 minutes on each side, until nicely browned. Remove and reserve.

Add the chopped onions, carrots, shallots, celery, garlic, and herbes de Provence to the skillet. Cook over medium-low heat until onions and shallots are translucent and vegetables are slightly softened, about 5 minutes.

Place cooked vegetables in the ceramic pot of the Cuisinart® Slow Cooker along with the drained diced tomatoes, vermouth, chicken stock, bay leaf, lemon zest, and reserved parsley leaves and stems. Stir to combine. Top vegetable mixture with the browned veal shanks in a single layer. Cover and press the On/Off button to turn the unit on. Set time to 6 to 8 hours and press Low; Slow Cooker will automatically switch to Warm when cooking time has elapsed.

(continued)

Degrease the cooking liquid with a fat mop, or pour the liquid into a fat separator and allow the fat to rise to the top. Then pour the defatted liquid back into the cooked vegetables. Serve with pasta, rice, or polenta.

Tip: Make your chopping task easy by using a Cuisinart® Food Processor fitted with the metal blade to chop the vegetables. First chop the parsley leaves and remove. Then with the machine running, drop garlic through the feed tube and process 5 seconds to chop. Add onion [cut into 1-inch (2.5 cm) pieces] and pulse to chop; remove. Pulse to chop shallots [cut into 1-inch (2.5 cm) pieces] remove. Pulse to chop carrots [cut into 1-inch (2.5 cm) pieces] and remove. Pulse to chop celery [cut into 1-inch (2.5 cm) pieces]. The chopping is done in just a few moments.

|-----|------------------------------------------------------------|---|--------------------------------------------------|
| 1 | tablespoon (15 ml) unsalted butter, softened | 2 | cups (500 ml) lowfat sour cream |

| 1 | cup (250 ml) freshly grated Parmesan, divided | 3 | large eggs, lightly beaten |
| 4 | cups (1 L) cooked potato pulp, or leftover mashed potatoes | 2 | green onions, cut into 1/4-inch (1.25 cm) slices |

Generously butter the bottom and sides of a 2-quart (1.9 L) soufflé dish. Combine breadcrumbs and 2 tablespoons (30 ml) Parmesan. Sprinkle mixture on bottom and sides of prepared dish. Reserve excess crumbs.

Cut a piece of aluminum foil about 24 inches (60 cm) long. Fold in half lengthwise, then fold in half again two more times to create a strip about 24 inches (60 cm) in length and 2 inches (5 cm) wide to make a "cradle"; reserve.

Set the dish in the centre of the long strip of folded foil and bring up the sides to meet – twist together to form a handle.

Place the rack in ceramic pot of the Cuisinart® Slow Cooker. To place the covered soufflé dish on the rack, use the foil cradle to help lift the dish, and carefully lower the dish into the pot and place on the rack. Carefully pour water into the bottom of ceramic pot. Cover and press the On/Off button to turn the unit on. Set time to 5 hours and press Low. While the potatoes are boiling, prepare the onions for topping. Melt butter in a 12-inch (30 cm) Cuisinart® skillet. Cook onion, stirring occasionally, until reduced and very lightly browned. Season with remaining salt and pepper. Transfer to large mixing bowl.

Beat potatoes with a Cuisinart® SmartPower™ Hand Mixer, starting on low speed. Add sour cream, cream cheese and minced garlic. Turn mixer to medium high; beat until smooth and slightly fluffy.

Cut a piece of aluminum foil about 24 inches (60 cm) long. Fold in half lengthwise, then fold in half again two more times to create a strip about 24 inches (60 cm) in length and 2 inches (5 cm) wide to make a “cradle”, reserve.

Spray the bottom and sides of a 2-quart (1.9 L) soufflé dish with cooking spray. Fill with potato mixture. Top with onions. Set the dish in the centre of the long strip of folded foil and bring up the sides to meet, twisting them together to form a handle. To place the covered soufflé dish on the rack, use the foil cradle to help lift the dish, and carefully lower the dish into the pot and place on the rack.

Cover and press the On/Off button to turn the unit on. Set time to 5 hours and press Low. Slow cooker will automatically switch to Warm when cooking time has elapsed. Potatoes will be puffed and onions browned. Remove the soufflé dish from the slow cooker using the foil strips to lift it.

Chocolate Terrine

Makes 16 servings

- 1 pound (454 g) bittersweet or semisweet chocolate, chopped
- 1½ cups (375 ml) half-and-half
- 4 large eggs, lightly beaten
- 3 tablespoons (45 ml) Kahlúa® or other liqueur
- Chocolate Glaze

Line a loaf pan, 8½ x 4½ x 3 inches (21.25 x 11.25 x 7.5 cm), with aluminum foil.

Applesauce

Makes about 7 cups (1.75 L)

- 4 pounds (1.8 kg) red apples*, washed
- 2 lemons, juiced
- sugar, optional
- cinnamon, optional

Core apples, but do not peel. Cut into 2-inch (5 cm) chunks. Mix lemon juice with enough water to make 1 cup (250 ml).

Add the apples and water mixture to Cuisinart® Slow Cooker. Cover and press the On/Off button to turn the unit on. Set time to 4 hours and press Low; Slow Cooker will automatically switch to Warm when cooking time has elapsed.

Use a potato masher to smash apples for a chunky applesauce, or purée the apple mixture in ceramic pot using a hand blender. Use a gentle up and down motion, moving the hand blender throughout the ceramic pot – do not lift completely out of the applesauce while blending. Season with sugar and/or cinnamon if desired.

*Some apples are more appropriate for applesauce. You may use all of one variety or mix to create your own blends. They may be peeled or not. For applesauce, try the following red varieties: McIntosh (blended with others), Elstar, Cortland, Fuji, Gala, Braeburn, Cameo, Critterion, Rome, Sierra Beauty, Spartan, Winesap, and York Imperial. Green varieties good for applesauce include Pippin and Gravenstein – they should be peeled first.

Apricot Almond Bread Pudding

Makes 8 servings [2 quarts (1.9 L)]

- 3 ounces (85 g) dried apricots, diced 1/2 cup sliced almonds, toasted
- 1/4 cup (63 ml) Kirschwasser®, brandy or amaretto 3 large eggs 2/3 cup granulated sugar
- 1 teaspoon (5 ml) unsalted butter 1 can [12 ounces (340 g)] fat-free evaporated milk
- 3 tablespoons (45 ml) unsalted butter, melted, divided 1 teaspoon (5 ml) vanilla
- 5 cups (1.25 L) bread, cut into 1/2-inch (1.25 cm) cubes 5 cups (1.25 L) very hot water

Soak apricots in Kirsch for 1/2 hour; drain and reserve liquor. Cut a piece of aluminum foil 20 inches (50 cm) long, and fold in half to a piece 10 inches (25 cm) long. Lightly butter one side with 1/4 teaspoon (1 ml) unsalted butter; reserve. Cut another piece of aluminum foil about 24 inches (61 cm) long. Fold in half lengthwise, then fold in half again two more times to create a strip about 24 inches (61 cm) in length and 2 inches (5 cm) wide to make a “cradle”; reserve.

Coat the inside of a 2-quart (1.9 L) soufflé dish with remaining 3/4 teaspoon (4 ml) unsalted butter. Layer 1/2 of the bread cubes on the bottom. Sprinkle with half the apricots and half the almonds. Drizzle with half the melted butter. Repeat. Pour remaining melted butter over top.

Beat eggs and sugar until thick, using a Cuisinart® Hand Mixer on low speed. Add milk, vanilla and reserved Kirsch; mix thoroughly.

Pour egg mixture over bread layers. Cover with the buttered foil. Secure tightly with kitchen twine. Set the dish in the centre of the long strip of folded foil and bring up the sides to meet, twisting together to form a handle. Place the rack in the ceramic pot of the Cuisinart® Slow Cooker. To place the soufflé dish on the rack, use the foil cradle to help lift the dish, and carefully lower the dish into the pot and place on the rack. Carefully pour hot water in bottom of ceramic pot. Cover and press the On/Off button to turn the unit on. Set time to 3 hours and press Low. Remove the soufflé dish from the slow cooker using the foil strips to lift it. Cool completely on a wire rack.

Note: You may substitute dried cherries for the dried apricots for a Cherry Vanilla Bread Pudding.
